Spanish Government

Justice – Digitalization of the Spanish Civil Registry – (Ministry of Justice)

What was the need?

Spanish Government - Digitalization of the Spanish Civil Registry.

Civil Registry is the organization in charge of managing the civil status of Spanish citizens, and the relationships between those citizens and the Ministry of Justice in aspects concerning birth, marriage, death, etc.

Spanish Government

Justice – Digitalization of the Spanish Civil Registry – (Ministry of Justice)

Context

an NTT DATA Company

Context

The Ministry was interested in modernizing the Civil Registry by digitalizing all the information previously stored in books. The purpose of this digitalization was to offer new electronic services to the Ministry of Justice, to the citizens and to other organizations to allow them to make their requests via Internet
